## **PREFACE**

The Research and Statistics Branch publishes the Labor Market Information (LMI) Directory. The branch provides labor market and workforce information mandated by cooperative agreements between the Commonwealth of Kentucky, the United States Bureau of Labor Statistics and U.S. Department of Labor, Employment and Training Administration. Other authorities include the Workforce Investment Act and the State Division of Unemployment Insurance.

Labor market and workforce information is used in policymaking, planning, program administration, and as a direct consumer service. It is the collection and analysis of data involving labor supply and demand.

The Research and Statistics Branch disseminates a wide range of demographic, labor force, economic, social, and other pertinent data and information to various public sectors. Employment specialists, employers, employees, educators, counselors, trainers, students, and planners are frequent users of the data and information.

The directory covers the output activity of the Labor Market Information Section and the Employment and Wages Section. It also includes data published by the Branch Manager's office.

The LMI directory's format consists of brief program descriptions, highlights of available publications and reports, a contact person, and an Internet address, if applicable.

## LABOR MARKET INFORMATION SECTION

The Labor Market Information (LMI) section is comprised of the Local Area Unemployment Statistics (LAUS) program, the Occupational Employment Statistics (OES) program, the Mass Layoff Statistics (MLS) program and the Workforce Information Core Products and Services program. This section collects and compiles a wide range of unemployment statistics and the occupational, economic, demographic, and social indicators of the state and the sub-state areas.

### Local Area Unemployment Statistics (LAUS)

The LAUS staff develops monthly and annual estimates of civilian labor force, employment, unemployment, and unemployment rates. The LAUS data is based on the Current Population Survey (CPS), administrative data from the Unemployment Insurance (UI) system, and employment estimates from the Current Employment Statistics (CES) and Quarterly Census of Employment and Wages (QCEW) programs. The labor force statistics are revised annually.

The LAUS program produces the following:

### LABOR FORCE ESTIMATES

- Monthly Civilian Labor Force (CLF) estimates, which include civilian labor force, employment and unemployment numbers, as well as unemployment rates, for the state, counties, and Metropolitan Statistical Areas (MSAs).
- Annual average CLF estimates (from 1970 to current) are also available.
- The CLF estimates referenced above can be accessed at the Internet address below.
- CLF estimates are also available for the following sub-state areas:
  - Workforce Investment Areas (WIAs)
  - Area Development Districts (ADDs)
  - Office of Employment and Training (OET) Local Offices
  - Congressional Districts
- The Education Cabinet, Office of Communications, releases updated CLF estimates monthly.

## Occupational Employment Statistics (OES)

**The Occupational Employment Statistics (OES)** program conducts semi-annual surveys of business establishments to determine statewide and area occupational employment and wage distribution. These include Area Development Districts (ADDs) and Workforce Investment Areas (WIAs). Distributions are also available at the North American Industrial Classification System (NAICS) sector level.

### KENTUCKY AND AREA OCCUPATIONAL WAGE DATA

- Current occupational employment and wage estimates for the state, fourteen ADDs, and ten WIAs are available on the website listed below. The complete list is available upon request.
- The following estimates are available for over 700 occupations; Estimated Employment, Relative Standard Error of the Employment Estimate, Percent Reporting Occupation, Entry Wage, Mean Wage, Median Wage, 25<sup>th</sup> Percentile Wage, 75<sup>th</sup> Percentile Wage, 90<sup>th</sup> Percentile Wage, and Relative Standard Error of the Wage Estimate.
- Occupational wage data by NAICS sector is available and accessible on the website.
- Additional wage information may be available upon request.

## **Mass Layoff Statistics (MLS)**

The Mass Layoff Statistics (MLS) program collects reports on mass layoff actions that result when workers are separated from their jobs. Monthly mass layoff numbers are from establishments that have at least 50 initial claims for unemployment insurance (UI) filed against them during a five-week period. Extended mass layoff numbers (issued quarterly) are from a subset of such establishments where private sector non-farm employers indicate that 50 or more workers were separated from their jobs for at least 31 days.

### **MASS LAYOFF DATA**

- The total number of statewide layoffs is available on a monthly, quarterly, and annual basis.
- The total number of statewide initial unemployment insurance claims filed during the layoff events is available on a monthly, quarterly, and annual basis.

## Workforce Information Core Products and Services Program

The Workforce Information Core Products and Services program researches, analyzes, and compiles labor market statistics and information, and develops Kentucky's Workforce Information (formerly ALMIS) statistics. The labor market and workforce information produced covers Kentucky counties, Workforce Investment Areas (WIAs), Metropolitan Statistical Areas (MSAs), Area Development Districts (ADDs), and the Office of Employment and Training (OET) local office areas. This information is published monthly, quarterly, annually, or in biannual publications. The program obtains data and information from the Kentucky Office of Employment and Training, the U.S. Department of Labor and the Kentucky State Data Center.

### INTERNET SITE

**Workforce Kentucky** ([www.workforcekentucky.ky.gov](http://www.workforcekentucky.ky.gov)) provides updated Kentucky labor market and workforce data for employers, economic developers, job seekers, students, career counselors, education and training providers, Workforce Investment Boards, government agencies, and other customer groups. The website also offers:

## LOCAL EMPLOYMENT DYNAMICS (LED)

The Local Employment Dynamics (LED) program is a partnership between the Kentucky Research and Statistics Branch (Office of Employment and Training) and the U.S. Census Bureau. It provides innovative demographic employment information called Quarterly Workforce Indicators (QWI) for Kentucky, its 120 counties, the ten Workforce Investment Areas and seven metropolitan areas. Just as national economic indicators measure the performance of the overall economy, the QWI are a set of economic indicators that can be queried in various ways to measure the performance of the local economy.

### QUARTERLY WORKFORCE INDICATORS (QWI)

Quarterly Workforce Indicator data available include:

- Total employment
- Net job flows
- Job creation
- New hires
- Separations
- Turnover rate
- Average monthly earnings for all workers
- Average monthly earnings for new hires

For each of the above eight categories, the following criteria can be selected:

- Year and Quarter (1<sup>st</sup> Quarter 2001 to current)
- Sex
- Age group (nine choices)
- Geographic grouping (statewide plus three additional choices)
- Industry (20 different NAICS supersector levels)
- All employers included vs. only privately owned employers

## EMPLOYMENT AND WAGES SECTION

The Employment and Wages Section consists of two programs—the Current Employment Statistics (CES) and the Quarterly Census of Employment and Wages (QCEW).

### Quarterly Census of Employment and Wages (QCEW)

The QCEW report is a quarterly compilation by industry and county of employment, wages, and contributions data from the employer's contribution reports submitted to states by those employers subject to state unemployment insurance laws. These employers include private corporate and non-corporate entities and all levels of government.

The data generated by the report are needed for trigger determinations under the federal/state extended benefits program; workload forecasting and budget estimates; solvency and experience rating studies of unemployment compensation; sampling frames for the Bureau of Labor Statistics establishment surveys; for personal income estimates by county and used by business and research organizations.

The following are publications generated from the QCEW program:

### Current Employment Statistics (CES)

The Current Employment Statistics (CES) program generates non-agricultural employment data for Kentucky and the Bowling Green, Elizabethtown, Lexington, Louisville and Owensboro MSAs. The program calculates manufacturing hours and earnings data for Kentucky and the Louisville and Lexington MSAs. CES estimates are based on a sample survey that is linked to the Quarterly Census of Employment and Wages (QCEW) report and benchmarked every year to the March employment levels.

The CES program produces the following reports:

## ESTIMATED NON-AGRICULTURAL WAGE AND SALARY EMPLOYMENT

## **BRANCH MANAGER'S OFFICE RESEARCH AND STATISTICS**

The branch manager's office collects and disseminates data relating to all aspects of the Unemployment Insurance program. The program provides weekly, monthly, quarterly, and annual reports to the state and federal governments on the data collected. A by-product of these reports is a wealth of unpublished information that is available upon request.

The branch manager's office produces the following unemployment reports and publications:

### **CLAIMS AND PAYMENT ACTIVITIES**

- Monthly report. (ETA 5-159)
- Claim activities information such as initial claims, eligibility reviews and continued weeks claimed.
- Payment activities information such as weeks compensated, first payment for all unemployment and final payment for all unemployment.
- Time-lapse information of first payment for total unemployment.
- Data detailed by type of claim, Unemployment Insurance (UI), Unemployment Compensation for Federal Employees (UCFE) or Unemployment Compensation for Ex-servicemen (UCX).
- Tabulation of both intrastate and interstate liable claims.

## SPECIAL PROJECTS

The Branch Manager's Office facilitates numerous special requests relating to the entire range of information developed by, or available within the Branch. Requests are addressed based on the availability of data and whether nondisclosure provisions as ascribed by the Bureau of Labor Statistics and the Kentucky Unemployment Insurance Law apply. Potential users of our data who might be interested in a customized data set should submit a letter to the branch manager detailing their project and information needs. We may ask that a Confidentiality Agreement be completed for government entities who seek specific information.
